Sewage Blockade of Humayun Road, New Delhi

1699. SHRI V. GOPALSAMY :
SHRI TINDIVANAM G. VENKATRAMAN :

Will the Minister of URBAN DEVELOPMENT be pleased to state :

(a) how many complaints of sewage blockade have been received by CPWD and NDMC from C1/19, Humayun Road, New Delhi during the last three months;

(b) whether the NDMC administrator also received any written complaint from the Member of Parliament dated 12th May, 1993; and

(c) what action has been taken to set the sewage line right permanently ?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT WITH ADDITIONAL CHARGE OF THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SHRI P. K. THUNGON): (a) The CPWD have received six complaints of sewage blockade and two complaints were received in NDMC during the last three months.

(b) Yes, Sir.

(c) The NDMC have reported that the blockage was removed with the help of Pressure Sewer Line Cleaning Machine. The sewer line on Humayun Road was desilted by the NDMC during their premonsoon drive. The sewer lines belonging to the NDMC are reported to be functioning properly and no major sewage blockage were noticed even during the monsoon season.

Excessive Exploitation of Ground Water in Punjab and Haryana

1701. SHRIMATI KAMALA SINHA: Will the Minister of WATER RESOURCES be pleased to state:

(a) whether it is a fact that excessive exploitation of ground water for intensive cultivation in Punjab and Haryana has led to a lowering of ground water levels by approximately six metres;

(b) whether it is also a fact that village ponds, which used to conserve and collect rain water, have been used as real estate, thereby compounding the problem;

(c) if so, what steps Government propose to take to conserve ground water levels in areas of intensive agriculture and prevent further environmental degradation; and

(d) the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT WITH ADDITIONAL CHARGE OF THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SHRI P. K. THUNGON): (a) Fall of more than four metres in the ground water level has been observed between May, 1992 and May, 1993 in small pockets of Jalandar and Kapurthala districts in Punjab and also in small pockets of Ambala, Bhiwani, Gurgaon, Hissar, Jind Karnal, Mohindergarh, Rohtak and Sirsa districts of Haryana.

(b) the use of villages ponds, which were allowing percoletion of water in the sub soil, for other purposes also contributes to the decline of the level of ground water.

(c) and (d) A Model Bill to control and regulate the development of ground water, so as to avoid over exploitation of ground water resources has been circulated to the State Governments/Union Territories including Government of Punjab for consideration/ suggestions. The Central Ground Water Board has also formulated a scheme for artificial recharge of ground water in critical blocks of the country.

Major and Minor Project in Orissa

1702. SHRI BISHAMBHAR NATH PANDE:
SHRI V. NARAYANASAMY:
Will the Minister of WATER RESOURCES be pleased to state:

(a) whether it is a fact that the Orissa Government has approached the Central Government for funds to complete the major and medium projects;

(b) whether the Orissa Government have also approached the international agencies for funding the project; and

(c) if so, the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT
